LOGO VERSIONS

REMIXES OF ORIGINAL MUSIC BY SPENCER OWEN

Sight Lines Visual is beyond proud to present 21 brand-new tracks remixing and reinterpreting original music by Los Angeles-based composer and producer **Spencer Owen**.

Initial SLV release ***Logo Dubs*** presented Owen's library music and score work for the label in album form. Now, ***Versions*** blows up the singular vision of its predecessor, refracting it through the perspectives of 18 exciting artists and 94 epic minutes of fresh, forward-thinking takes on the music.

Including artists featured in each prior SLV release, ***Versions*** continues the film brand's entré into building not only a bold in-house recording catalog, but a curated music label.

To borrow from the mighty MGM –
Sonus propter soni *

**Sound for sound's sake*, or *sound because of sound.*
Apparently the more direct *sonus gratis soni* translates to "free ringtones"
